Current Alerts

SITUATION SUMMARY

September Significant Wildland Fire Potential Outlook

NORTHERN CALIFORNIA

- Dry fuels combined with record drought levels will keep much of the region at very critical fire potential levels.
- Fuels across the Modoc Plateau down into the Sierra have been drying more gradually, but could approach marginally critical levels by mid September with 1 or 2 Offshore/Foehn wind events.
- These factors are expected to produce above normal large fire potential across much of the Coastal Range eastward into the Western Sierra.
- The Predictive Monthly Outlook can be accessed [HERE](#)
- The Predictive Seasonal Outlook can be accessed [HERE](#)

Highlights for September

- **Above Normal Temperatures**
(3 to 6 Deg Above Normal)
- **Below Normal Precipitation**
(30% - 60% of Normal)
- **Above Normal Large Fire Potential**
Coastal Mountains to Western Sierra

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

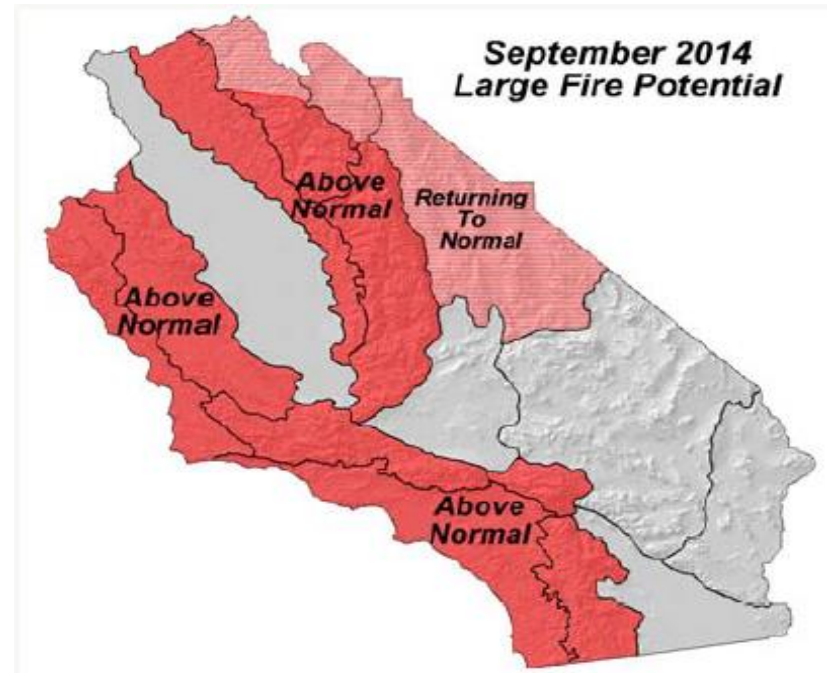

September Significant Wildland Fire Potential Outlook

SOUTHERN CALIFORNIA

- Although there have been numerous wet thunderstorms across the region, much of the rainfall ran off instead of penetrating the subsoil in an efficient manner.
- Aerial reconnaissance as well as ground surveys indicates there is an increasing dead fuel component to mature stands of brush and shrubs. Higher elevations have seen some die off of evergreen vegetation as a result of the drought.
- The extremely dry conditions along with the possibility of drier and warmer weather than average this fall may result in a continued elevated level of resource demand for several more months.
- Fires will be very active during windy periods with high rates of spread, long range spotting, and crown runs at higher elevations.
- The Predictive Monthly Outlook can be accessed [HERE](#)

Highlights:

- *Large fire potential remaining above normal well into fall for coastal and mountain areas of Southern CA*
- *Large fire potential returning to near normal from north to south during the early fall months*
- *Below average precipitation and above normal temperatures expected through late October*
- *Seasonal rains will likely occur **after** one or two significant offshore wind events this fall.*

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Water Main Break, San Diego

- At approximately 1800 hours on 9/3/14, San Diego County EMS reported a water main break in the 2600 block of Meadow Lark Drive in the Serra Mesa neighborhood that affected two health care facilities. Rady Children's Hospital and Sharp Memorial Hospital were able to remain open using emergency water supplies but halted admissions and EMS patients were diverted to other area hospitals. An EF-8 Sitrep was generated by the Medical and Health Operational Area Coordinator (MHOAC) and the California Department of Public Health (CDPH) Duty Officer was notified. As of 0915 hours on 9/4, both hospitals are open and accepting patients with no issues. The water main is fixed, the water department is charging the line, and normal water flow is anticipated. The OA has no requests for assistance. The Cal OES Southern Duty Officer will continue to monitor this situation.

Tropical Storm Norbert: Ventura, Los Angeles, Orange, and San Diego Counties

- Tropical Storm (at times Hurricane) Norbert will move northwest off the coast of Baja California through this weekend. This will bring a large increase of moisture over southern California by Sunday. Thunderstorms will be possible beginning early Sunday and could continue through Tuesday. The best chance of thunderstorms will be in the mountains, but there is a slight chance some thunderstorms could occur near the coast and over the coastal waters. High winds and heavy rain will be possible with some thunderstorms, especially in the mountains and deserts, and local flash flooding will be possible. There is also a chance of high surf at the coast on south-facing beaches mainly around Monday from Norbert.

September El Nino Update

- While conditions are still favorable for the development of an El Nino later this summer into the fall, the National Weather Service (NWS) currently is forecasting a slightly lower probability that an El Nino will develop by this fall/winter. The current chances of an El Nino developing are around 60-65%, as compared to a 65% probability from last month. The NWS is continuing the El Nino Watch that was first issued in March. An El Nino Watch simply means that conditions are favorable for the development of an El Nino within the next six months. So, while we are currently not in an El Nino event, forecasters still expect an El Nino event to emerge over the next couple of months. Current forecasts are pointing to any El Nino that develops to be a weak El Nino event.
- As we've discussed in the past, the strongest correlations with increased precipitation occur with strong El Nino events, and this correlation is strongest across southern California. As stated above, our best estimate is that the El Nino event will be a weak strength event. There is, unfortunately, little correlation between weak El Nino events and above-normal precipitation. In the past, above normal precipitation has occurred during some of these events, while below-normal conditions have occurred during others. The 1976-77 drought occurred during a weak El Nino. That is not to say that drought conditions will continue this winter; rather, it is to simply emphasize that, especially with weak El Nino events, we cannot say with any certainty what the character of the precipitation will be this upcoming winter.

The El Nino Forecast can be found [HERE](#)

The current three-month forecasts for precipitation probabilities can be found [HERE](#)

SITUATION SUMMARY

Governor Brown Requests Presidential Major Disaster Declaration, Offers Additional South Napa Earthquake Recovery Assistance

Moving to help communities recover from the South Napa Earthquake, Governor Edmund G. Brown Jr. today requested a Presidential Major Disaster Declaration for the state and issued an Executive Order to help cut red tape and provide additional financial assistance.

A Presidential Major Disaster Declaration triggers the release of Federal funds to help communities recover and the Executive Order provides additional financial assistance to local agencies and non-profit organizations and ensures residents can replace important documents and access key services without shouldering additional costs or other burdens.

The full text of the letter and Executive Order is [HERE](#)

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA. The earthquake nucleated at a depth of 10.8km. The shaking intensity in American Canyon and Napa from the “South Napa Earthquake” was a “VII” on the Modified Mercalli Scale, suggesting very strong shaking occurred in the Napa County area. Ground shaking was felt as far south as Salinas, east to Sacramento, and north to Ukiah. The Cal OES Earthquake and Tsunami Duty Officer is in contact with the United States Geological Survey and California Geological Survey and will provide updates.

South Napa Earthquake Recovery VIP Tour

- A tour of South Napa was held 9/3/14, and is hosted by the City and County of Napa.

Access and Functional Needs

- Solano County established a casework hotline at (707-438-7059) from 1000 – 1700 hours.
- Napa County established a casework hotline at (707-257-2900) from 1000 – 1700 hours.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Damages

CA State Parks Office of Historic Preservation reports inspections are this week for the Sonoma State Historic Park sites: Vallejo Home, Jack London, Petaluma Adobe and Benicia Capitol.

County of Napa

• Historic Buildings Damaged:

- Uptown Theater (red tagged), Napa Valley Opera House (yellow tagged), Sam Kee Laundry, Goodman Library, Napa County Courthouse, and Napa State Hospital.

City of Napa

- 129 red tagged structures; >1,000 yellow tagged structures

Sonoma County

- 44 residences with minor damages; 7 businesses with minor damages

Solano County

- Two (2) buildings sustained minor damage in Fairfield. There is no damage reported in unincorporated areas.

City of Vallejo

- 30 red tagged structures; 409 yellow tagged structures

City of American Canyon

- 1 red tagged structure; 45 yellow tagged structures

Napa Airport

- The earthquake blew out most of the windows in the Napa air traffic control tower and the facility is unusable. It could take several weeks to get new windows manufactured and installed.
- No obvious damage to the structure.
- A temporary tower was installed until the permanent tower is repaired. The controllers will use temporary towers (small cabs on the top of trailers) until fully restored in a couple of months.

Mobile Home Parks

Housing and Community Development (HCD) and Cal OES Safety Assessment Program (SAP) inspectors continue to inspect mobile home parks.

- Vallejo reports 3 additional mobile homes with damage (9/2/14).

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Evacuations/Shelters

- American Red Cross shelter: Crosswalk Community Church, located at 2590 First Street, Napa, CA: Population: 32
- Pets can be sheltered at the Napa County Animal Shelter on Hartle Court, Napa, CA.
- American Red Cross shelter: Florence Douglas Senior Center, located at 333 Amador Street, Vallejo, CA: Population: 3

Health and Medical

- St. Helena Hospital turbidity of sources was investigated and found to be minimal. The main turbidity problems are associated with their storage tanks. Contacts have been provided to the water system for tank cleaners. Additional bacteriological samples were collected by staff. There are no notices in place at this time; however, the situation continues to be monitored.
- The Office of Statewide Health Planning and Development (OSHPD) completed inspection of buildings at Napa State Hospital and the Sonoma Developmental Center.
- Per the Department of Social Services, the following CCL Adult and Senior Care Facilities are impacted:
 - Nazareth Rose Garden of Napa, 903 Saratoga Drive, Napa. Closed due to water damage, 38 residents moved.
 - Napa Valley Support Services - Brown Street, 2225 Brown Street, Ste. 102, Napa. The facility closed with ceiling damage.
 - Napa Valley Support Services – Napa, 622 Imperial Way, Napa. The facility closed with ceiling damage.

The following hospitals/clinics are closed:

- Community Health Clinic (aka: Clinic Ole), 1100 Trancas Street, Napa: Will be closed for two to four weeks due to water damage from a coil in the hot water heater going out during the earthquake. The damage is in two exam rooms and some offices. [All patients with existing appointments have been given appointments at affiliate clinics. They have postings on the outside of clinic, website, and social media on where patients can access care if needed.](#)

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Health and Medical Cont.

CDPH Women, Infants and Children (WIC) reported (5) centers (1 in Solano; 4 in Napa County) are closed and will reopen on 9/8/14.

- Department of State Hospitals: Staff relocations to safe structures continue. Structural engineers continue to evaluate identified yellow and red tag structures. Aside from diligent monitoring, hospital life/safety/health issues and patient treatment areas are back to standard operations.
- The Department of Child Support Services: Napa County Child Support Agency is again providing services to child support customers. Napa County Public Health (NCPH) will be submitting a formal request to the Napa MHOAC regarding a request for assistance from the DEODC Emergency Preparedness Team. NCPH is requesting a community assessment of emergency preparedness, mental health issues, chronic disease exacerbation, and injuries following the earthquake. The assessment is planned for the week of 9/15/14.
- The CDPH and EMSA Duty Officer programs continue to monitor and update the impact of the incident.
- CDPH Division of Licensing and Certification (L&C) continues to monitor the situation and provide updates on the status of affected licensed facilities.
- CDPH Division of Environmental and Occupational Disease Control (DEODC) Emergency Preparedness (EP) will be assisting Napa County Public Health with an assessment planned for the week of 9/15/14 regarding epidemiological assessment of injuries, chronic disease exacerbation, mental health needs, and personal preparedness related to the earthquake.
- The CDPH Center for Health Statistics and Informatics (CHSI), Vital Records Registration Branch (VRRB) has been in contact with the Napa County Recorder's office and has not received requests for assistance but is monitoring the situation.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Power and Utilities

Per CUEA:

- All communications functioning in normal range, AT&T has a COLT (cell on light truck) and mobile charging trailer on site in downtown Napa.
- PG&E strike teams deployed to provide welfare checks to the community for isolated power outages for Napa and damaged areas.

Water

- There is still a boil water order for any area with a loss of pressure.
- **Water stations remain open through most of the week; notice will be provided prior to closing these facilities:**
 - Las Flores Center on Linda Vista Avenue and Pearl Street (1 block west of Main
- St. Helena Hospital (System No. 2800625): St. Helena Hospital (SHH) reported no total coliform and E. coli. A precautionary boil water notice for 5 residences in the SHH public water system was issued due to a water main leak from an aftershock on 9/1 which required depressurization for repairs. This does NOT impact hospital facilities. The residences affected are 37, 39, 42, 44, and 46 Hillcrest Rd. **The leak was repaired and pressure restored, with bacteriological testing commencing 9/2/14 due to laboratory availability. The turbidity of sources was investigated on 8/29/14 and found to be minimal. The turbidity problems associated with the storage tanks are being addressed by tank cleaners 09/03/14. New damage (9/1) to waterline will need to replace 1,000 feet of pipe. Will need temporary storage tank during replacement.**
- City of Napa (System No. 2810003): The City of Napa repaired 8 small leaks on 9/2/14.
- **The City of Napa uses several large tanks as part of their water delivery system. One is a (1) million gallon “B Tank” which suffered extensive damage and is located on Montana Drive in Browns Valley. This tank is off line causing water pressure to fluctuate for approximately 1,800 customers in the Browns Valley and Congress Valley areas. The affected area is generally west of Westview Drive, south of Redwood Road (including Lynn Drive) and north of Old Sonoma Road. During periods of high water use, lower pressures may be most noticeable for those with homes at higher elevations. This is because water pressure is normally created by gravity flow from the hillside tank, but currently is being created by pumped systems that are not designed for this sole purpose.**
- **Water Division managers are adjusting pressure in the system to provide a temporary solution to this problem, but the City is looking for residents in this affected area to help with the solution by adjusting irrigation systems and reducing water use during high demand hours.**
- **It may take up to six months to repair or replace the “B Tank.”**

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Deployments

- None

Activations

- State Operations Center – Level 1 Activation
- Coastal Region Emergency Operations Center (REOC) – Level 1 0800-1700 hours
- Napa County EOC - Level 1 for Recovery Operations

Proclamations:

- The Governor issued an Executive Order authorizing CDAA and requested a Presidential Disaster Declaration, 09/02/14.
- The County of Napa declared a Local Emergency, 08/24/14.
- The City of Napa Proclaimed a Local Emergency, 08/24/14.
- The County of Solano declared a Local Emergency, 08/24/14.
- The City of Vallejo (located in Solano County) declared a Local Emergency, 08/24/14; Update received 8/29/14.
- The County of Sonoma declared a Local Emergency, 08/30/14.
- The City of American Canyon (located in Napa County) declared a Local Emergency, 08/26/14.

Mission Status:

- 2 Coordinating
- 1 Action Required
- 0 On Scene
- 22 Closed

GO-Biz (Governor's Office of Business & Economic Development)

The Governor's Office of Business & Economic Development is working with the State Alcohol & Beverage Control Board to relax regulations if helpful; e.g., if a business needs to relocate temporarily or long term, the license may be transferred to the new address.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County Cont.

Recovery

- Cal OES Recovery Individual Assistance (IA) continues to support the REOC and respond to inquiries from individuals affected by the earthquake. All IA and Public Assistance (PA) joint federal/state/local preliminary damage assessments (PDA) have concluded and a request for Presidential Disaster Declaration was forwarded by the Governor on 09/02/14.
- Cal OES Recovery PA is working with Cal OES Region and the operational areas to schedule an Applicants' Briefing to identify the types of assistance available and programmatic guidelines.
- The City of Napa website has information regarding earthquake recovery resources.
- Northern CA VOAD coordinated a meeting on 9/2/14 at the Crosswalk Community Church in Napa to discuss the need for a Long Term Recovery Committee (LTRC) in Napa and Solano counties. The Cal OES Voluntary Agency Liaison (VAL) and Nor Cal VOAD provided information on forming a LTRC and bringing together a coordinated effort to assist residents. Immediate needs identified were affordable housing, chimney repair, debris removal from private properties, and assistance with strapping down water heaters. Participants expressed the need for LTRC and identified key local leaders that could be involved in LTR efforts. A follow up meeting will be held on 9/4/14.

Local Assistance Center

The City of Vallejo is holding a Local Information Booth located at 555 Santa Clara Street, Vallejo and is working with the Chair of the Solano Volunteer Organizations Active in a Disaster (SVOAD), to assess needs and make information available to the community.

- Location: Vallejo City Hall – Lobby, Tuesday, 9/2 through Friday, 9/5/14, 1000 – 1600 hours.
- Two translation laptops were provided to assure communication for anyone who is deaf and uses sign language interpreters, and for those with limited English proficiency needing other language interpreters.
- Discussions regarding the need for a LAC or similar type of resource center continues.

American Red Cross Assistance Center: Napa Marriott Hotel opened on 09/01/14 from 1000 to 1900 hours for Napa and Solano County; center will be open for two weeks.

County and City of Napa: LAC opening on Monday, 9/8/14 at 426 First Street, Napa.

Solano County: Is working with the City of Vallejo on a joint assistance center.

Cal OES Individual Assistance participated in a conference call with Napa County on 09/02/14, to discuss setting up a Local Assistance Center. A list of Philanthropic efforts and NGO / Donations are being compiled to match needs to available resources. The list will be made available to LTRCs for assistance with any unmet needs identified.

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Warm and dry conditions will persist through this weekend. Areas of smoke from the Happy Camp fire will impact the coast as offshore winds continue. A shortwave will move across the North Coast late this weekend diminishing the offshore flow. A high pressure ridge will strengthen producing warmer temperatures late next week.

San Francisco Weather:

Ongoing dry weather conditions and near normal temperatures will prevail through the upcoming weekend.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Breezy north winds across the northern mountains and Sacramento Valley today, otherwise dry weather continuing into next week with a little above normal temperatures.

Hanford Weather:

Little change weather-wise expected for the next several days as a cooler westerly wind flow aloft and high pressure dominates Central California.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA

Los Angeles Weather:

A weak trough of low pressure off the West Coast will bring below normal temperatures and extensive night through morning low clouds to the coasts and valleys through Friday. On the weekend, high pressure will build bringing warmer temperatures and less coastal low clouds. For next week, a slight cooling trend is expected.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A trough of low pressure will remain along the West Coast today with temperatures running near to below normal along and west of the mountains and near to slightly above normal in the deserts. Locally gusty west winds will once again be possible in the mountains and deserts during the later afternoon and evening. High pressure will then expand across Southern California for Friday and the weekend with warmer conditions developing through Saturday. Remnants from Hurricane Norbert will then spread into the Southland for Sunday through Tuesday with a chance of showers and thunderstorms possible. Drier and cooler conditions will return by midweek.

Southeast California Weather:

Moisture will continue to increase. Showers and thunderstorms will remain more isolated over the higher terrain through Friday, but should become more periodic and widespread by the end of the weekend and early next week.

WEEK AHEAD WEATHER

Thursday – Friday

- Dry and breezy conditions will continue the threat for large fire growth over northern CA.
- Elsewhere, no significant hazards are expected at this time.

Saturday – Monday

- Return of moisture to the extreme SE CA deserts will increase the threat of thunderstorms with strong gusty winds and damaging wind possible.
- Elsewhere, no significant hazards are expected at this time.

Tuesday – Wednesday

- No significant hazards expected at this time.

California OES Impact Threat Matrix

Emergency Management

Evacuations

- Mandatory Evacuations:
 - Scott River Road from Bridge Flat to the intersection of Hwy. 96.
 - All areas south of Hwy. 96 between Scott River Road and Grider Creek Road.
 - All areas south of Hwy. 96 from Seiad Valley down river to Kade Summit.
 - All areas north of Hwy. 96 between Scott River Road and Kade Summit.
- Evacuation Advisories:
 - All areas north of Hwy. 96 between Scott River Road and Grider Creek.
 - China Grade Road from Frying Pan Road to Elk Creek Bridge.
- With the increased geographical Evacuation Advisory/Order areas there are currently a combined estimated number of 170 homes with a population of 230 residents.
- Currently, there has been no request for LE Mutual Aid; Siskiyou Sheriff's Office, CHP, and US Forest Service LEO personnel, are assigned to Evacuation Advisories/Orders, security and road closure

FIRE ACTIVITY

Happy Camp Complex, Vegetation Fire, Siskiyou County Cont.

Shelters

- An evacuation center has been established at Winema Hall at the Siskiyou Golden Fairgrounds, 1712 Fairline Road, Yreka. Population: 4
- [An evacuation center has been established at the Karuk Tribe's Senior Nutrition Center located at 64101 Second Avenue, Happy Camp.](#)
- Both large and small animals will be accommodated at the fairgrounds.

Health and Medical

- A Clean Air Respite Center is located at the Family Resource Center at 11920 Main St., Ft. Jones. It will be open during the week from 0900 – 1700 hours. A clean air respite Center has been activated at the Karuk Tribe's Senior Nutrition Center located at 64101 Second avenue in Happy Camp, 0800 - 1700.
- A Health Emergency has been declared as a result of this Complex.

Road Closures

- China Grade Road is open to residents only.

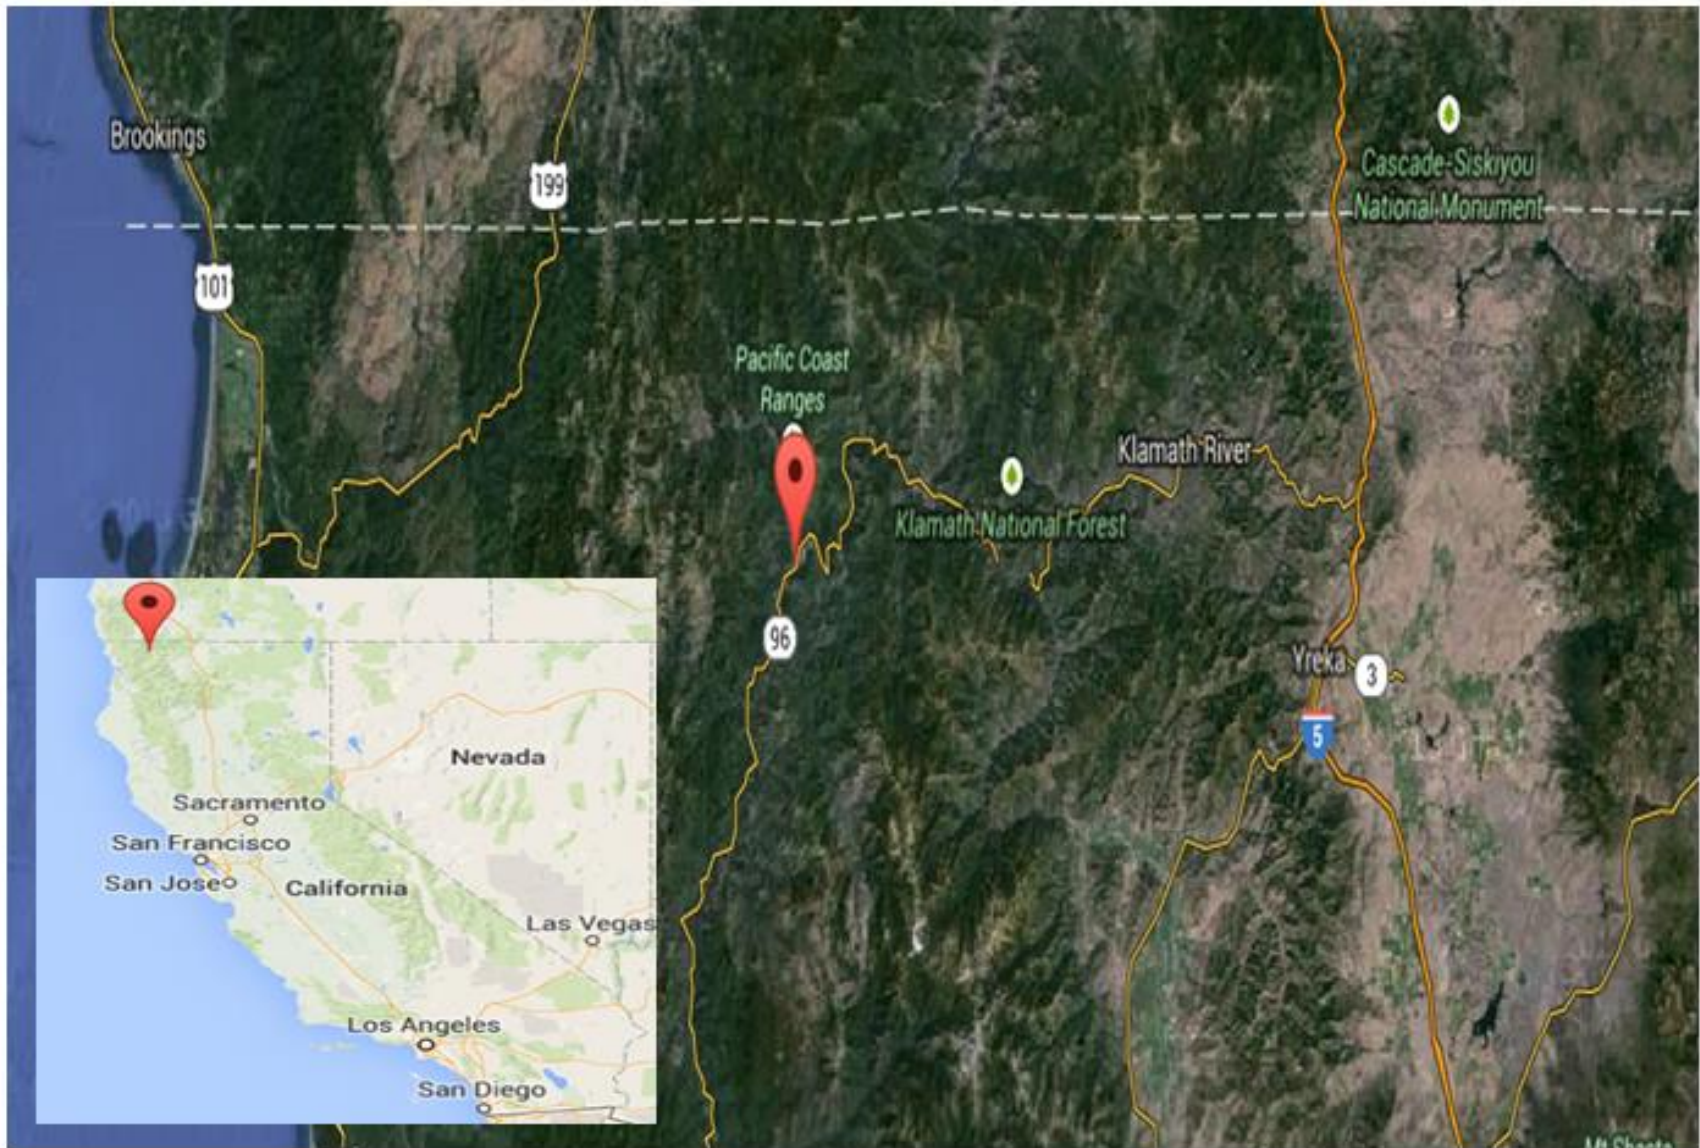

Activations

- Siskiyou County EOC activated Level 1

Mission Tasking

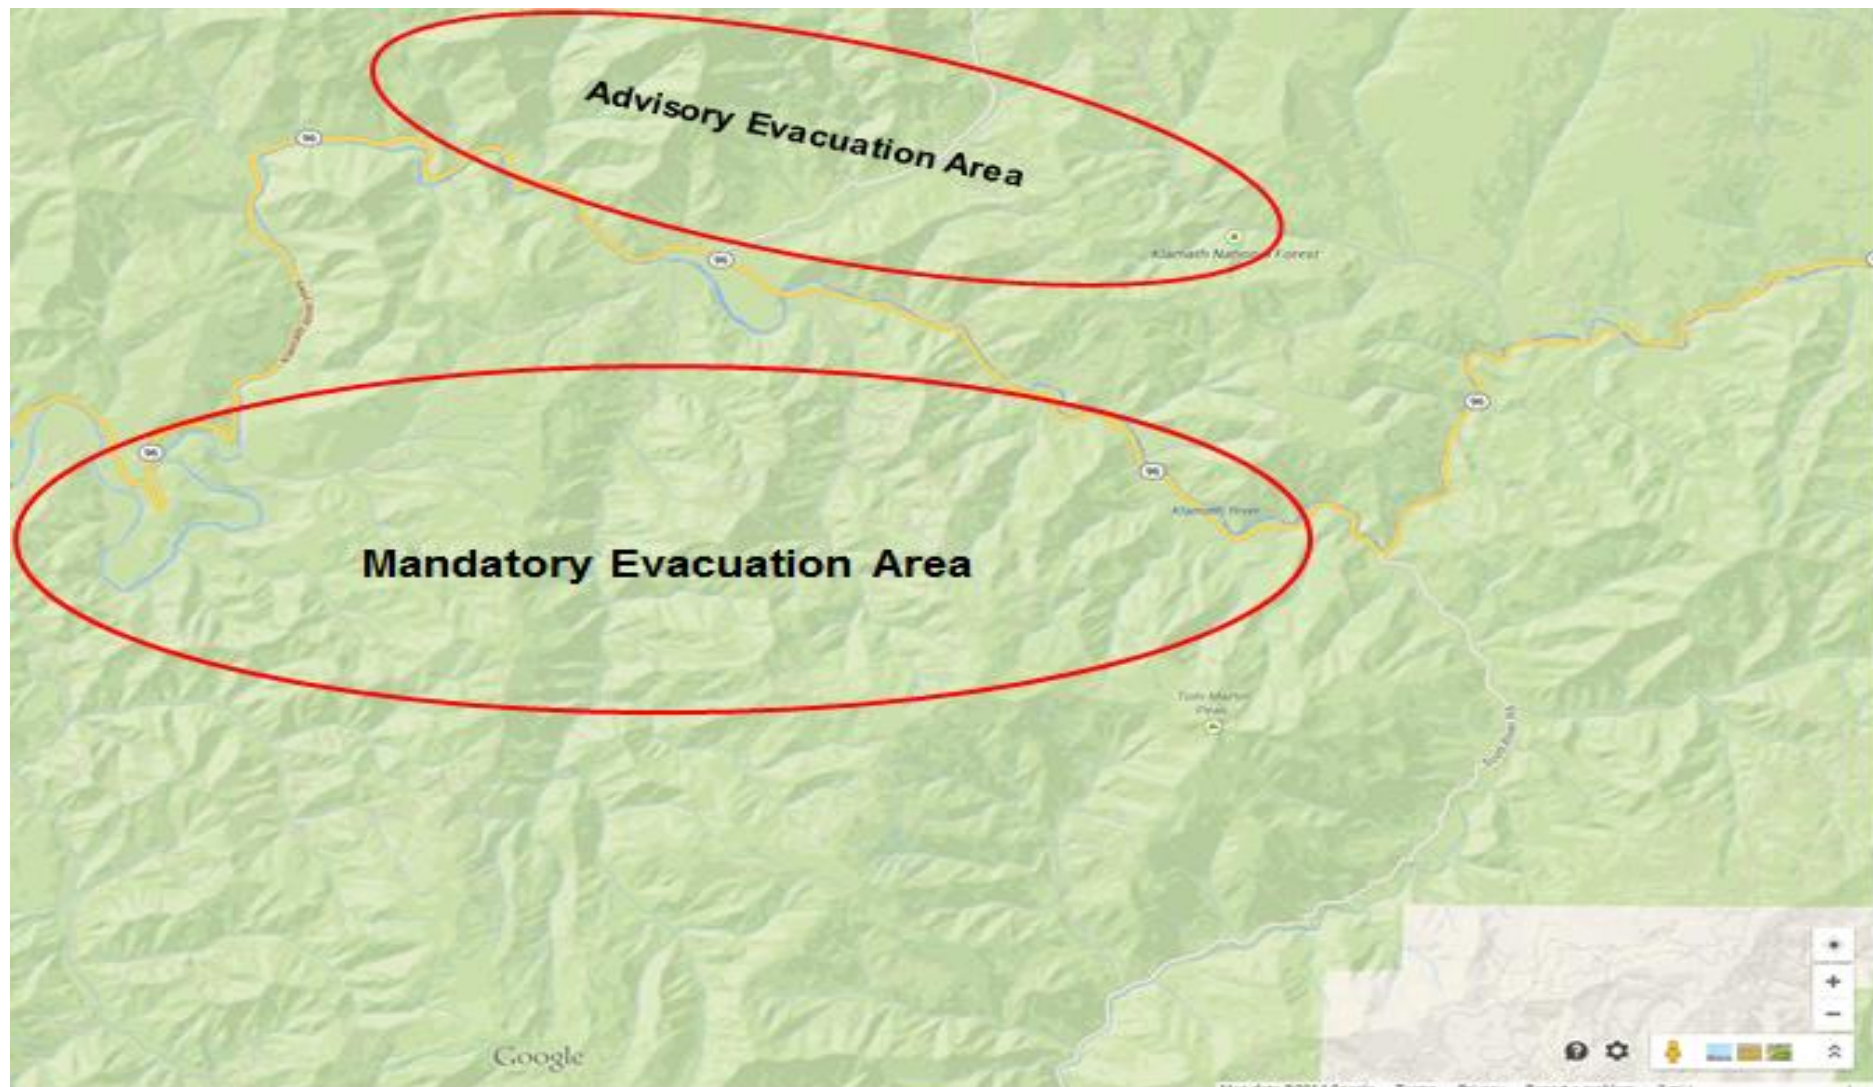

- **2014-IREOC-4568**
- Eight units are in continuing service.
- Due to commencement of school this week at the Klamath site, Unit #29 was relocated on 8/25 to a new site (Seiad Valley) 15 miles west.
- PM levels in the good to hazardous range ($>2,400$ mg/m³) were recorded intermittently at Happy Camp and Sawyers Bar.
- Other locations have predominantly good to moderate air quality with intermittent unhealthy air quality.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

New Proclamations

- None

Drought Update Report

- The Drought Brief will be distributing on a bi-weekly basis. The next brief will be on September 15th.

CAL OES TRAINING AND EXERCISES

Cal OES – Training and Exercises

- **SAREX 2014 will be on September 5-7** in Napa County AC Telecommunications and ACS Volunteers along with MIGU 3, radio repeaters, cache radios, COMM 25 and COMM 62 will be on hand providing support and training to State SAR Coordinators and mission.
- **Cal OES Day of Preparedness at the State Capital will be held on September 6th.** ACS Volunteers along with MIGU 4, will be providing support and training.
- **Urban Shield 2014 will be held September 5-7** at Moffett Field. San Mateo County Sherriff's along with MIGU 2 will be providing service and support.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
